SUBJECT: ABRAHAM BROTHMAN, Was.
ESPIONAGE - R
Your File 100-95068

On 11/15/50 [redacted] Newark, N. J. telephonically advised the Newark Office that he had received information from an attorney, [redacted] Newark, to the effect that a secretary of [redacted] was in possession of information concerning the above-captioned case. b7D

[redacted] was subsequently contacted at his office at which time he disclosed that his secretary, [redacted] Newark, had disclosed some information to him which he considered of importance. b7D

Accordingly, [redacted] was interviewed at which time she provided the following information: b7D

[redacted] stated that [redacted] she was employed as a [redacted] at the INDUSTRIAL PROCESS ENGINEERS (IPE), 8 Lister Avenue, Newark, N. J. During this employment [redacted] pointed out that she observed that ABRAHAM BROTHMAN and MIRIAM MOSKOWITZ were in frequent contact with the president of the above firm, ALFRED LEWISON and were apparently close friends. [redacted] noted that [redacted] BROTHMAN from LEWISON and that on one occasion LEWISON's wife remarked to her, [redacted] that ABRAHAM BROTHMAN was a "genius" and that she was hoping that her own son could follow in BROTHMAN's footsteps. b7D

[redacted] stated that the significance of these contacts between BROTHMAN and LEWISON was brought to light when she read in the newspapers of the testimony of ELIZABETH BENTLEY during BROTHMAN's trial in New York City. In this connection she stated that BENTLEY had testified that she was the go-between for the passing of the designs of "kettles" from BROTHMAN to JACOB GOLOS. [redacted] stated that IPE was engaged in the production of "kettles" for use at Oak Ridge, Tenn., and that she believes this may have been the source for the material referred to by BENTLEY. b7D

In addition, [redacted] stated that [redacted] name unknown, had approached her with regard to becoming a member of the Communist Party. b7D

[redacted] specifically requested that her identity be kept confidential. 070

Re Newark let to Bureau and New York 8/1/50 which reflects that [redacted] voluntarily appeared at the Newark Office on 7/31/50 with his attorney and furnished information concerning BROTHMAN. [redacted] advised at that time that [redacted] subject had been [redacted] since September 1949 as a consulting chemical engineer. [redacted] also furnished a copy of the [redacted] and BROTHMAN and MOSKOWITZ, which [redacted] was forwarded to New York. 070

[redacted] was interviewed 11/16/50 relative to the material on which BROTHMAN has worked for IPE with specific reference to the "kettles" referred to by [redacted] which she stated were manufactured by IPE. [redacted] stated that IPE receives numerous requests from companies and individuals all over the world who wish to enter business in the chemical or industrial manufacturing field. These requests are in the nature of invitations to bid and requests IPE to design the physical setup of a proposed plant. Whenever such request is received which involves setting up a chemical process, BROTHMAN is called upon to design that phase of the chemical plant. BROTHMAN makes rough sketches or drawings together with notations containing the proposed setup and IPE engineers produce finished blueprints from BROTHMAN's sketches. [redacted] stated that EMIL BARISH, an engineer employed at IPE, has worked with BROTHMAN at the latter's New York City offices on all such work. [redacted] explained that BARISH is also employed by IPE. 070

[redacted] stated IPE has performed a quantity of work for the UNION CARBIDE AND CARBON COMPANY, Plant K-25, Oak Ridge, Tennessee, none of which work has been classified as restricted. He stated the bulk of this work has consisted of the manufacture of "heaters" commonly called "kettles" which are chemical mixing machines. [redacted] said subject has had nothing to do with any of this work with one exception. [redacted] stated that subject estimated the heat load of one heater which was described as a gas super heater, MKH-3, which was recorded on Order #WCI-94801, Requisition A-81024, dated April 4, 1950. 070

[redacted] stated that although [redacted] has engaged BROTHMAN's services frequently since September 1949 to design chemical processes for proposed plants, few of the bids on which subject work have been accepted. 070

After several unsuccessful attempts to call R. V. RAMANI at Ulster Chemical Company, Cliffwood, N. J., telephone Mattawan 1-1049 in order to make an appointment with him for an interview, I called SA Frank Ralsbeck of the Newark Office and advised him we desired RAMANI to be interviewed today, if possible, regarding his knowledge of BROTHMAN'S activities.

SA Ralsbeck stated he would attempt to conduct this interview today and telephone the results to the New York Office when finished.

Re: ABRAHAM BROTHMAN
ESP. R.

I called Inspector Carl Hennrich, Bureau at 11:08 A. M. and advised him that at 11:05 A. M. ABRAHAM BROTHMAN was sentenced to five years in prison and five thousand dollars fine on Count 2 of the indictment and to two years and ten thousand dollars fine on Count 1 of the indictment, sentences to run consecutively, and the defendant will stand committed until the fine is paid. I advised Mr. Hennrich that MIRIAM MOSKOWITZ was sentenced to two years and ten thousand dollars fine on Count 1 and she is to stand committed until the fine is paid.

I told Mr. Hennrich that Judge Irving Kaufman had stated that he regretted the statute limited him in imposing these sentences.
